

Mentorship Program Spring 2024

A collection of notes & messages from the students

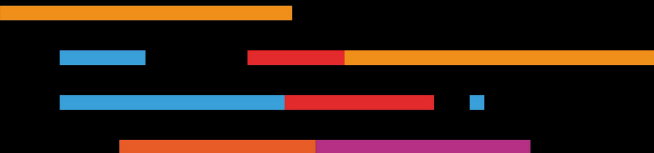

Procedure

1. Make a copy of this presentation! (File > Make a Copy)
2. Fill in your answers in the TEMPLATE slide as accurate as you can;
3. Include a meme in the designated area;
4. Send your presentation back to sush@codam.nl
BEFORE Friday, 21st Just, 12:00.

THE TEMPLATE

The Mentee:

Diane Wang

2024/2025

Top 3 learnings from the Mentorship Program:

1. How a junior engineer CAN contribute
2. That everything I learn at Codam will be applied to the 'real' world.
3. Interview prep is critical and needs to be extensive.

The advice I will never forget:

Shakir is extremely organized and efficient, and moved through meetings and tech seamlessly.

And.. everyone needs to somewhere wrt their first tech job.

The Mentor:

Mohammed Shakir

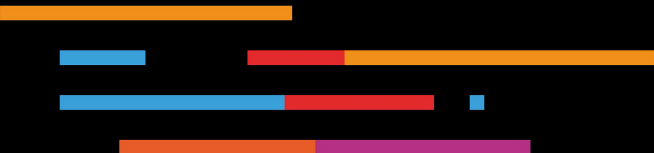

Booking.com

My advice to my mentor:

To have fun and spend time on the roof of Booking.com during the 'summer'. Also we did disagree on the value add of Chat GPT :)
THANK YOU SO MUCH FOR EVERYTHING!

THE EXAMPLE

The Mentee:

Danai Giannopoulou
2020 Cohort

Top 3 learnings from the Mentorship Program:

1. Fun is important
2. Networking is my superpower
3. Get comfortable with asking questions and not knowing everything

The advice I will never forget:

Have balance and feel in control of both professional and personal lives.

The Mentor:

Ivana Tanova
TomTom

My advice to my mentor:

Never stop sharing this great energy!

10 years of Android development
experience and background in medicine

Ivana

I don't know
how to use a
debugger mentor, help

Danai
